

BetterWorld Technology Partners with PCs for People to Promote Sustainable E-Waste Recycling and Empower Individuals

CHICAGO, IL, USA, July 15, 2024

[/EINPresswire.com/](#) -- [BetterWorld Technology](#), a leading nationwide

Managed Services Provider, is proud to announce its partnership with [PCs for](#)

[People](#), a non-profit organization dedicated to providing affordable

computers and internet access to low-income individuals and families. This strategic partnership underscores

BetterWorld Technology's commitment to sustainability and community

empowerment through responsible e-waste recycling and technology access.

Sustainable E-Waste Recycling

In a bid to tackle the growing challenge of electronic waste, BetterWorld Technology has selected PCs for People as its exclusive equipment lifecycle disposal and recycling partner. Through this collaboration, BetterWorld Technology will ensure that its e-waste is recycled in an environmentally responsible manner, significantly reducing the carbon footprint and contributing to a greener planet. PCs for People's expertise in e-waste recycling ensures that all devices are either refurbished for reuse or recycled in compliance with the highest environmental standards.

Empowering Communities

This partnership goes beyond sustainability; it is about making a tangible difference in the lives of individuals. PCs for People will refurbish usable devices and distribute them to low-income individuals and families, helping bridge the digital divide. Access to technology is crucial for education, employment, and connectivity in today's world. By providing refurbished computers and affordable internet access, PCs for People empowers individuals to improve their quality of life and seize new opportunities.

Quotes

"Partnering with PCs for People aligns perfectly with our mission to deliver sustainable

technology solutions and support community empowerment,” said John Jordan, COO of BetterWorld Technology. “We are excited to work together to provide access to technology for those who need it most, while also promoting responsible e-waste recycling.”

“PCs for People is thrilled to partner with BetterWorld Technology in our efforts to bridge the digital divide,” said Casey Sorenson, CEO of PCs for People. “Together, we can make a significant difference in the lives of low-income individuals by providing them with the tools they need to succeed in a digital world.”

About BetterWorld Technology

BetterWorld Technology is a nationwide Managed Services Provider dedicated to delivering innovative IT solutions that drive business success and sustainability. With a focus on managed IT services, cybersecurity, and cloud solutions, BetterWorld Technology helps organizations of all sizes achieve their technology goals while promoting environmental responsibility.

About PCs for People

PCs for People is a non-profit organization committed to providing affordable technology to low-income individuals and families. By refurbishing donated computers and offering low-cost internet services, PCs for People helps bridge the digital divide and create opportunities for education, employment, and social inclusion.
