

# Smart Insulin Pens Global Market 2024 To Reach \$0.13 Billion By 2028 At Rate Of 6.4%

*The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033*

LONDON, GREATER LONDON , UK, July

17, 2024 /EINPresswire.com/ -- The

smart insulin pens market has

experienced robust growth in recent

years, expanding from \$0.1 billion in

2023 to \$0.1 billion in 2024 at a compound annual growth rate (CAGR) of 6.0%. The growth in the historic period can be attributed to increase in diabetes prevalence, strong economic growth in emerging markets, increased geriatric population, increased healthcare expenditure and public health insurance reforms.

## Growth Driver Of The Smart Insulin Pens Market

The increasing global diabetic population is expected to propel the growth of the smart insulin pen market going forward. The diabetic population refers to individuals who have been diagnosed with diabetes; a chronic medical condition characterized by elevated levels of blood glucose. Smart insulin pens improve diabetes management by offering precise insulin dosage tracking, reminders, and data integration, enhancing treatment adherence and overall glycemic control for individuals with diabetes.
