Calcium Peroxide Market Definition

Calcium peroxide refers to an inorganic compound with the formula CaO_2 . Calcium peroxide is an industrial chemical formed when calcium salts and hydrogen peroxide are combined. Calcium peroxide is almost insoluble in water, but when it comes into touch with it, it hydrolyses and releases oxygen. When calcium peroxide is exposed to acid, it decomposes into hydrogen peroxide. It has superior oxidizing agent properties, making it suited for usage in agricultural sectors to maintain soil quality and produce productivity.
