## Market Overview

- **Market Size and Growth:** The global [ankylosing spondylitis market](#) was valued at \$5,140.94 million in 2020 and is expected to reach \$8,110.59 million by 2030, with a CAGR of 4.6% from 2021 to 2030.

- **Disease Overview:** Ankylosing spondylitis is an inflammatory disease causing spinal vertebrae fusion, leading to reduced flexibility and potentially severe complications like breathing difficulties.

## Symptoms and Diagnosis

- **Early Signs:** Includes morning stiffness, lower back and hip pain, neck pain, and fatigue.
- **Diagnosis:** Primarily through physical examination, supported by MRI and X-ray imaging.

## Treatment and Management

- **Current Approaches:** Focus on symptom management as there is no known cure.
- **Medications:** NSAIDs, TNF inhibitors, corticosteroids, and DMARDs are commonly used.
- **Emerging Therapies:** Monoclonal antibodies like Taltz have shown efficacy in reducing inflammation and pain.

## Market Drivers

- **Prevalence:** Increasing global prevalence, with significant screening results such as 7.3% positivity in Spain.
- **Healthcare Infrastructure:** Growth in orthopedic hospitals and diagnostic centers enhancing disease detection and treatment.

- Therapeutic Advancements: FDA approvals and advancements in therapy contribute to market expansion.

#### Market Segmentation

- By Drug Class: Dominated by NSAIDs; TNF inhibitors showing promising growth.
- By Distribution Channel: Major channels include hospital pharmacies, retail pharmacies, and online pharmacies.

#### Regional Insights

- North America: Largest market share due to high disease prevalence, robust healthcare infrastructure, and key player presence.
- Asia-Pacific: Expected highest growth rate (CAGR 6.1%) due to increasing healthcare facilities and population base.

#### Key Players

- Leading Companies: AbbVie, Amgen, Pfizer, Novartis, Lilly, among others, driving innovation and market growth.

#### Challenges

- Cost and Side Effects: High therapy costs and potential adverse drug effects pose challenges to market growth.
