

CrafterCMS Unveils New Trust Center, Underscoring Commitment to Security and Transparency

Trust Center provides comprehensive insights into CrafterCMS's security practices and compliance measures.

MCLEAN, VA, USA, July 17, 2024

/EINPresswire.com/ -- CrafterCMS, the leading headless content management system for enterprises, is proud to

announce the launch of its new Trust

Center, now accessible at <https://trust.craftercms.com>. This dedicated microsite is designed to provide our customers, solution partners, and open source community with comprehensive insights into CrafterCMS's security practices and compliance measures.

CrafterCMS is an open-source, headless content management system for enterprises.

The launch of our Trust Center underscores our dedication to the highest levels of transparency and security"

*Mike Vertal, CEO of
CrafterCMS*

The CrafterCMS Trust Center features:

1) SOC 2 Audit Report: Demonstrating our commitment to stringent security standards, the SOC 2 report provides an in-depth review of our controls related to security, availability, processing integrity, confidentiality, and privacy.

2) CAIQ (Consensus Assessments Initiative Questionnaire): As a standardized questionnaire, the CAIQ allows

customers to quickly assess CrafterCMS's security posture and practices against industry standards.

3) Additional Security Documents: The Trust Center also includes a variety of important documents detailing our security policies, compliance certifications, and data protection measures.

"Trust is paramount in today's digital landscape," said Mike Vertal, CEO of CrafterCMS. "The launch of our Trust Center underscores our dedication to the highest levels of transparency and

security, ensuring all of our stakeholders ranging from enterprise customers to open source users can confidently leverage our content platform to deliver exceptional, high-performance, and ultra-secure digital experiences."

The CrafterCMS Trust Center is just one part of the company's ongoing efforts to uphold the highest standards of security and compliance. An inherently secure, advanced [decoupled CMS architecture](#) is another critical component. By building on a secure technology foundation and providing easy access to critical security documentation, CrafterCMS will continue to deliver the highest levels trust and collaboration with its user community.
