The innovative software, developed by MortgageFlex, will enable PERSOWN Connect to consolidate and manage global microfinance loans. These global loans provide funding to healthcare workers for point-of-care diagnostic equipment and Starlink-enabled access to telehealth and trustworthy AI software. The PERSOWN Connect platform will improve (FETS) Finance, Equip, Train, and Support operations of healthcare organizations (NGOs) and their in-country Certified Medical Technicians (CMTs).

Furthermore, the platform will allow for the securitization of these loans by pooling asset-backed securities and opening new access to capital markets to support pent-up demand for PERSOWN Connect's affordable care delivery platform to millions of families worldwide as a sustainable

business model.
