## Rising Prevalence of Cancer Propels Market Growth

The rising prevalence of cancer significantly contributes to the growth of the clinical nutrition for cancer care market. Cancer, characterized by uncontrolled cell growth and potential spread, is on the rise due to increased life expectancy, making the aging population more susceptible. Clinical nutrition provides specialized dietary management tailored to cancer patients, optimizing treatment outcomes. For instance, according to the World

Health Organization, approximately 35 million new cancer cases are predicted in 2050, a 77% increase from 2022.

Explore comprehensive insights into the global clinical nutrition for cancer care market with a detailed sample report:

## Major Players and Market Trends

Key players such as Pfizer Inc., Bayer AG, and Abbott Nutrition are developing innovative products like oral nutritional supplements to gain a competitive edge. For example, in July 2022,

Nestle launched China's First Foods Oral Impact Su Yi Su, a nutritional supplement designed for patients with tumor-related conditions, following a five-year approval process.

### Trends in Nutritional Biomarker Research and Technology

The forecast period is expected to witness significant trends, including advances in nutritional biomarker research and technological innovations in nutritional products and delivery systems. Increased collaboration between oncologists and advancements in nutritional science are also prominent trends shaping the market.

### Segments:

- Type: Oral Nutrition, Parenteral Nutrition, Enteral Feeding Formulas
- Cancer Type: Head And Neck Cancer, Stomach And Gastrointestinal Cancers, Blood Cancer, Breast Cancer, Lung Cancer, Other Cancer Types
- Age Group: Adult, Pediatric
- Sales Channel: Online, Retail, Institutional Sales
