## Rising Adoption of Cloud-Based Solutions Drives Market Growth

The rising adoption of cloud-based solutions is a significant factor contributing to the growth of the cash management system market. Cloud-based solutions offer scalability, cost-effectiveness, and accessibility, meeting diverse organizational needs across industries. They provide several features and advantages that improve the

effectiveness, precision, and security of financial processes. For instance, in December 2023, according to Eurostat, the percentage of EU businesses that bought cloud computing services increased by 4.2 percentage points in 2023 compared to 2021. Therefore, the rising adoption of cloud-based solutions is driving the growth of the cash management system market.
