By industry vertical, the BFSI segment dominated the market in terms of revenue in 2020, contributing to around one-fourth of the global B2B telecommunication market, as it allows leading banks to securely process unique transactions as per business requirements in a day. However, the media and entertainment segment is projected to register the highest CAGR of 17.7% from 2021 to 2030, as it offers secure communication solution, which enables media houses to contact with big media houses and producers.

By enterprise size, the SMEs segment would register the highest CAGR of 15.9% during the forecast period, owing to the presence of small and medium-scale organizations and rise in need to enhance telecommunication systems among the SMEs to increase their business reach. However, the large enterprise segment held the largest share in 2020, accounting for nearly two-thirds of the global B2B telecommunication market, as it helps in auto-attendant and calls transferring.

By region, the market across North America held the largest share in 2020, contributing to around one-third of the market, due to increase in adoption of IoT and cloud-based products. However, the global B2B telecommunication industry across Asia-Pacific is anticipated to portray the highest CAGR of 16.1% during the forecast period, owing to the presence of several large-scale manufacturers and availability of high-speed communication networks across the region.

The key players profiled in the B2B telecommunication market analysis are Amdocs, AT& T, Inc., Cisco Systems, Inc., Comarch S.A., Deutsche Telekom AG, NTT Communication, Orange S.A., Telefonica, S.A., Vodafone Group PLC, and Verizon. These players have adopted various strategies to increase their market penetration and strengthen their position in the B2B telecommunication industry.
