## Strong Future Growth Anticipated

The dental services market is projected to continue its strong growth, reaching \$778.05 billion in 2028 at a compound annual growth rate (CAGR) of 7.3%. The growth in the forecast period can be attributed to the faster economic growth, increasing dental tourism, rising demand for cosmetic dentistry, technology, increasing incidence of dental disorders, increasing older population,

and an increase in awareness of oral hygiene and biomimetic dentistry.

## Growth Driver Of The Dental Services Market

The increasing prevalence of dental disorders is expected to propel the growth of the dental services market going forward. Dental disorders refer to a range of conditions that affect the teeth, gums, mouth, and associated structures. Dental services play an important role in preventing and managing dental disorders by providing regular check-ups, cleanings, and

treatments to maintain oral health and address issues promptly, reducing the risk of complications.
