

Global Clear Aligners Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company's Clear Aligners Global Market Report 2024 - Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK, July

19, 2024 /EINPresswire.com/ -- The

clear aligners market has experienced robust growth in recent years,

expanding from \$3.83 billion in 2023 to

\$5.2 billion in 2024 at a compound annual growth rate (CAGR) of 35.8%. The growth in the historic period can be attributed to a high prevalence of malocclusions, growing demand for dental services in emerging markets, and favorable government initiatives.

Growth Driver Of The Clear Aligners Market

The rising prevalence of dental malocclusion across the world is the major factor responsible for the growth of the clear aligners market. Malocclusion is a medical disorder where the teeth are misaligned and/or incorrect relation between the teeth of the upper and lower dental arches. The incidence of malocclusion is high with variations between various geographic regions and age groups. It is one of the most common dental problems along with dental caries, gingival disease, and dental fluorosis.

The regions covered in the clear aligners market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa

Clear Aligners Market Definition

Clear aligners are orthodontic devices that are used to align and straighten the teeth by using force to regulate their movement. The aligners are crafted to fit each person's mouth out of a sturdy plastic material. If a series of aligners is required, the teeth are moved incrementally with each aligner until the necessary movement is attained.
