LA QUINTA, CALIFORNIA, USA, July 22, 2024 /EINPresswire.com/ -- [BTP Automation](#), an industry leader in SaaS for real-time data-driven hotel sourcing and compliance solutions, announces two key innovations enhancing hotel spend visibility and GDS Hotel Rate Auditing.

BTP's integration with Concur Travel Solutions introduces the first fully integrated hotel sourcing and compliance solution, offering clients unparalleled pre-trip travel hotel data visibility. This integration gives BTP and SAP Concur customers 100% visibility into Concur Travel hotel data, including TripLink room nights and room nights booked through any TMC or non-TMC platform. This comprehensive access allows organizations to optimize their RFP buying power by integrating Concur Travel hotel data into their negotiation spend. Additionally, clients can effortlessly monitor compliance with their preferred hotel rates, ensuring adherence to company policies and driving cost savings.

"We have always believed our customers needed a comprehensive view of their hotel spend regardless of how or where the hotel night is booked. ," stated [Annette Cumming](#), Co-founder and Chief Revenue Officer at BTP Automation. "Our integration with Concur Travel Solutions empowers our customers to maximize their negotiation leverage and fully capitalize on their entire hotel spend."
