Definition:

Business strategy consulting is the practice of making suggestions to companies in order to help them develop operating strategies and gain a competitive edge. Consultants determine the company's strengths and weaknesses by evaluating its activities, position, and external environment. They offer specialized assistance on M&A, corporate restructuring, business development plans, and market access strategies. Analytical methodology, industry specialization, and alignment with the organization's objectives and core values are all crucial components of business strategy consulting. Through better decision-making and increased performance, these services assist businesses in developing long-lasting business models in a market that is continuously evolving.
