With the FSA and HSA approval, SmartPillbox users can now leverage pre-tax dollars to purchase the device, which makes SmartPillbox more affordable and also provides significant tax savings for users, thereby reducing their overall healthcare expenses.

SmartPillbox is now available for purchase with FSA and HSA funds.

Flexible Spending Accounts (FSA) and Health Savings Accounts (HSA) are special accounts that allow consumers to save pre-tax money for eligible medical expenses. By having the approval for these accounts, SmartPillbox is expanding access to the device, ensuring more people can benefit from the advanced medication reminders without worrying about additional out-of-pocket expenses.

“We are incredibly proud to have SmartPillbox approved for FSA and HSA purchases,” said the SmartPillbox Team. “This approval is a testament to our commitment to making medication reminders accessible and affordable for everyone. By allowing consumers to use their pre-tax healthcare dollars, we are encouraging better health practices through our innovative technology.”

SmartPillbox is a medical device that uses technology to innovate the medication adherence industry with its ability to remind, track, and monitor medication intake, can make a big impact with just a small change.

The mission of SmartPillbox is to empower individuals to take control of their health by providing reliable, easy-to-use devices that ensure timely medication intake. With SmartPillbox, users can set daily reminders, track their medication adherence, receive refill alerts, and enjoy peace of mind knowing they are staying on top of their health.
