

DYU Launches the Stroll 1: A New Lightweight Road eBike

Introducing a blend of practicality and style for urban and recreational cyclists

NETHERLANDS, July 28, 2024

/EINPresswire.com/ -- Summary: DYU is proud to announce the release of its latest electric bike, the [Stroll 1](#), designed to cater to urban commuters and recreational riders. This mid-range entry-level road eBike features a lightweight aluminum frame, powerful motor, and a range of thoughtful features aimed at enhancing the riding experience.

DYU has unveiled the Stroll 1, the first eBike in its new Road Series. This model is tailored for those seeking a reliable, efficient, and stylish transportation solution. The Stroll 1 is equipped with advanced components and a sleek design, making it suitable for various riding scenarios, including city commuting, road racing, and suburban recreation.

Key Features:

- 1. Lightweight and Streamlined Design:** The Stroll 1 boasts a lightweight aluminum alloy frame that enhances agility and ease of handling. Its streamlined design not only adds to its visual appeal but also improves aerodynamics for a smoother ride.
- 2. Efficient Motor and Long-Lasting Battery:** The 36V/250W high-speed spoke motor allows the Stroll 1 to reach speeds of up to 25 km/h (15.53 mph). Paired with a 36V/9AH removable battery, the bike offers a range of over 60 km (37.28 mi) on a single charge, ensuring it meets the needs of daily commutes and longer journeys.

3. Superior Tire Performance: The 700*38C CST puncture-proof tires provide excellent grip and stability, making the bike safe to ride on various surfaces, including wet and slippery roads.

4. Advanced Braking System: Safety is a priority with the Stroll 1, which features a dual-hydraulic (oil) disc brake system. This system offers reliable braking power, allowing for quick and safe stops in various conditions.

5. Smooth Gear Shifting: Equipped with a Shimano seven-speed shifting system, the Stroll 1 makes it easy to adapt to different terrains. Riders can shift gears smoothly, enhancing their overall riding experience.

6. Integrated LED Display and Lighting: The compact LED digital display keeps riders informed about key metrics such as speed, battery life, and distance traveled. Additionally, the front LED headlight ensures visibility during night rides, enhancing safety.

7. Practical and Stylish Additions: The Stroll 1 comes with practical features such as a front basket, rear pannier rack, and a water bottle holder. These additions make the bike both functional and stylish, perfect for carrying essentials during rides. Quote from DYU: "We are excited to introduce the Stroll 1, our first eBike in the Road Series," said Andy, Sales director at DYU. "The Stroll 1 is designed to provide a balanced combination of performance, comfort, and style, making it an excellent choice for urban commuters and recreational cyclists."

Target Audience: The Stroll 1 is designed for mid-range consumers aged 25-50, including both

male and female riders. It is ideal for urban commuters, recreational road racers, and anyone looking for a practical and stylish eBike.

Riding Scenarios:

Urban Commuting: Navigate city streets with ease and efficiency.

Road Racing: Enjoy speed and agility on open roads.

Suburban Recreation: Take leisurely rides in suburban areas.

Multiple Riding Modes: The Stroll 1 offers two riding modes to suit different preferences:

Pedal Assist Mode: Provides a boost to pedaling efforts, making it easier to tackle hills and long distances.

Pedal Mode: Allows for riding using pure human power, offering a great workout and control over speed.

Market Position and Pricing: The DYU Stroll 1 is positioned as a mid-range entry-level road eBike, offering excellent value with its combination of lightweight design and practical features. The suggested retail prices are:

\$899

€999

£1099

Availability: The Stroll 1 is now available for purchase on the DYU website and through authorized dealers. For more information and to place an order, visit the [official DYU website](#).
