Southwest Pipe Services to Exhibit at Southern Gas Association 2024 Operators Conference July 22-July 24

As the industry leader in mechanical removal of pipe coatings, Southwest Pipe Services is committed to ensuring safety, compliance, and efficiency in pipeline operations. The company's team of experts will be present at the conference to share insights and innovations that address the unique challenges faced by the natural gas industry.

"We are thrilled to be a part of the 2024 Southern Gas Association Operators Conference," said the spokesperson of Southwest Pipe Services. "This event is a platform for us to connect with industry professionals, explore new opportunities, and demonstrate how our services can help

The Southern Gas Association Operators Conference is centered around the theme of "Driving Energy Reliability by Strengthening and Growing our Natural Gas Industry." Through various tracks and topics, the conference aims to empower operators and industry partners to shape their systems, drive innovation, facilitate collaboration, and optimize outcomes. It provides a unique opportunity for professionals in the natural gas industry to enhance their knowledge, build valuable networks, and stay updated on the latest trends and technologies.

Southwest Pipe Services invites attendees of the conference to visit their booth at SGA 2024 and engage with their team to learn more about their services and how SW Pipe can contribute to a cleaner, more efficient future in the oil, gas, petrochemical, and energy industries.

Under the inspiring theme of “Driving Energy Reliability by Strengthening and Growing our Natural Gas Industry,” this year’s Operations Conference will delve into crucial topics that align with global long-term clean energy requirements.

About Southwest Pipe Services:

Southwest Pipe Services, Inc. (SWP) is an environmental pipeline service company specializing in the mechanical removal of pipe coatings. Southwest Pipe Services are performed for many clients in the oil and gas, petrochemical, and energy industries. Services provided in Alvin, TX, or Winfield, KS facilities. Southwest Pipe Services can even mobilize to a client’s job site or facility and perform cleaning services on-site. Many of the coatings we remove are classified as regulated waste by the U.S. Environmental Protection Agency (EPA), (pipelines) containing asbestos (ACM) and [Polychlorinated Biphenyls \(PCBs remediation\)](#). SWP handles the removal of these coatings as specified by all local, state, and federal regulating agencies.

Dedicated to innovation and sustainability, Southwest Pipe Services, Inc. (SWP) contributes to a cleaner, more efficient future in the oil, gas, petrochemical, and energy industries. For more information about Southwest Pipe Services, Inc., please visit www.southwestpipeservices.com.
