Strong Future Growth Anticipated

The hospital daily cash benefit insurance market is projected to continue its strong growth, reaching \$80.77 billion in 2028 at a compound annual growth rate (CAGR) of 10.3%. The growth in the forecast period can be attributed to growing demand for health insurance policies, increased awareness about the benefits of insurance coverage and rise in chronic diseases and

disabilities.

Growth Driver Of The Hospital Daily Cash Benefit Insurance Market

The increased hospitalization rates are expected to boost the growth of the hospital daily cash benefits insurance market going forward. Hospitalization refers to the process of admitting a

patient to a hospital or healthcare facility for medical treatment, care, or observation. The expansion of the healthcare market due to increased hospitalization rates creates more opportunities for insurance providers to offer and sell hospital daily cash benefits insurance policies, thereby expanding the market's reach.
