Signs of Foundation Damage

Foundation damage can manifest in various ways, and it's crucial for homeowners to recognize these signs early to

prevent further structural issues. Some common indicators of foundation problems include:

- Cracks in walls and floors
- Uneven or sloping floors
- Doors and windows that stick or do not close properly

Gaps around windows and doors
Water seepage in basements or crawl spaces

Addressing these issues promptly with the help of skilled professionals can prevent more severe damage and costly repairs in the future.

Academy House Leveling's Expertise

Academy House Leveling specializes in identifying and repairing foundation damage, providing services such as:

House Leveling: Restoring the evenness of floors and correcting the tilt of homes.

Foundation Repair: Fixing cracks, stabilizing foundations, and reinforcing structural integrity.

Crawl Space Repair: Addressing moisture issues, sagging floors, and supporting beams.

Pier and Beam Foundation Repair: Reinforcing and stabilizing pier and beam foundations to ensure longevity.

The company's approach combines thorough inspections, detailed assessments, and customized repair plans tailored to each home's unique needs. By employing industry-leading methods and materials, Academy House Leveling guarantees durable and reliable solutions.
