

Ben Franklin Plumbing OKC Announces New Page on Water Heater Repair in OKC (Oklahoma City)

Ben Franklin Plumbing OKC announces a new page explaining water heater repair issues. Oklahoma City locals can find energy-efficient solutions for hot water.

OKLAHOMA CITY, OKLAHOMA, UNITED STATES, July 30, 2024 /EINPresswire.com/ -- Ben Franklin

“

Finding out how to live better and save money is always a good thing. We know OKC residents also care about their environment.”

Jason Clark

Plumbing OKC, Oklahoma City's newest plumbing company at <https://www.benfranklinokc.com/>, is proud to announce a new update to its information page for [water heater](#) repair in OKC. Residents ready to get an energy-efficient water heater can find answers at the new page.

"Finding out how to live better and save money is always a good thing. We know OKC residents also care about their environment. Any easy thing that checks these boxes is investing in a new energy-efficient water heater," said

Jason Clark, Proprietor of Ben Franklin Plumbing OKC. "Our team of top-rated [plumbers](#) in Oklahoma City are happy to talk to anyone ready to learn about the benefits and how to get their own."

Oklahoma City residents and property owners can review the updated page for water heater repair in Oklahoma City, Oklahoma, at <https://www.benfranklinokc.com/water-heaters/>. Replacing an old water heater with a modern energy-efficient model can provide several benefits. It can reduce energy costs by using up to fifty percent less energy than standard water heaters. New models demand less maintenance, saving time as well. OKC residents concerned about waste and climate change can find energy-efficient water heaters to minimize energy consumption, which can contribute to a smaller carbon footprint.

Ben Franklin Plumbers of OKC can also offer energy-star-rated water heater replacement. Tankless water heaters require less space than a standard water heater and deliver continuous hot water. Interested persons can review the company page for tankless water heaters at <https://www.benfranklinokc.com/tankless-water-heaters/>.

Another option is a hybrid heat pump/water heater. The hybrid can cut costs to less than half

and produce long-term savings. OKC residents can find information about rebates for new Energy Star water heaters at the Oklahoma natural gas website:

<https://www.oklahomanaturalgas.com/save-money/rebates-and-incentives/residential-rebates/residential-rebates-water-heater>.

Ben Franklin Plumbing provides services to the Oklahoma City area, such as water heater repair and replacement, 24/7 emergency plumbing, [sewer](#) line repair, and general household plumbing repair issues.

WATER HEATER REPAIR IN THE OKC IS ENVIRONMENTALLY FRIENDLY

Here is the background on this release. Utility costs can be a problem for Oklahoma City homeowners. Conserving energy and money might be the right idea to help lower costs. An energy-efficient home in OKC may find that replacing a water heater can help reduce utility costs and improve the quality of life. A team of professionals managing water heater repair in OKC can help find answers. Eco-friendly tankless water heaters and hybrid models can reduce water use and leave a smaller carbon footprint. Speaking to a professional plumbing service about energy-star water heaters could be the first step toward an environmentally friendly home.
