Growth Driver Of The Release Agents Market

The rise in the bakery and confectionery industries is expected to propel the growth of the release agents market going forward. The bakery and confectionery industries encompass the production and sale of baked goods, such as bread, pastries, cakes, candies, and other sweet treats. The expansion of the food service industry, including cafes, restaurants, and quick-service restaurants, has increased demand for bakery and confectionery products. Release agents are

commonly employed in bakery operations to prevent baked goods from sticking to baking surfaces, facilitating easy removal and maintaining product integrity.
