Definition:

The global Healthcare BPO Services market is expected to witness high demand in the

forecasted period due to healthcare infrastructure development around the world. Healthcare business process outsourcing is an activity where a healthcare provider contracts its non-core activities to an external party. Rather than doing the work themselves, the healthcare company hires a third-party firm to perform the job for them. There are various factors that are responsible for the growth of the market such as rapid increase in clinical process outsourcing (CPO), implementation of PPACA compelled healthcare player to move toward outsourcing, and fewer errors in several non-critical functions, like finance and accounting, customer care services, etc.

Market Trends:

Implementation of PPACA Compelled Healthcare Player to Move toward Outsourcing

Market Drivers:

Rise of Nearshore Outsourcing Destinations and Access to Technology

Rapid Increase in Clinical Process Outsourcing (CPO)

Market Opportunities:

The Increasing Healthcare Infrastructure in Developing and Developed Countries

Target Audience:

Potential Investors

New Entrants

Government Bodies

Medical Institutions

Research and Development Institutes

Others
