Veterinary Rehabilitation Services Global Market
Report 2024 – Market Size, Trends, And Global
Forecast 2024-2033

The rising pet ownership is expected to propel the growth of the veterinary rehabilitation services market going forward. Pet ownership refers to the act of keeping and caring for a domestic animal or pet. It encompasses various responsibilities and activities associated with the animal's well-being, health, and maintenance. The rising pet ownership is due to changing societal attitudes towards pets as family members, increased awareness of the benefits of pet companionship for mental and physical health, and the availability of a wider variety of pet-friendly housing and services. Veterinary rehabilitation services are an integral part of modern pet care, utilized by pet owners to ensure their pets lead healthy, active, and happy lives.
