

MTI America Revolutionizes Dental Management for Injured Workers

POMPANO BEACH, FLORIDA, UNITED STATES, July 25, 2024

/EINPresswire.com/ -- MTI Pioneers AI-Driven Clinical Management Reducing Client Costs and Improving Injured Worker Experience and Outcomes.

MTI America, a leading provider of workers' compensation ancillary services, announces significant enhancements to its national [dental program](#). Building upon decades of experience servicing injured workers, MTI America today announces a strategic exclusive partnership with Workforce Dental Solutions.

This groundbreaking collaboration combines MTI's cutting-edge technology platforms with Workforce Dental's 30+ years of clinical expertise in managing dental claims. Together, they will offer a comprehensive suite of virtual and in-person dental solutions that drive better outcomes for injured workers while reducing overall claims costs for Employers, Third-Party Administrators, State Funds, Municipalities, and Insurance Carriers.

MTI's long-standing commitment to innovation in its product portfolio is reflected in the enhancements to the dental program announced today. "By fusing our innovative digital capabilities with their proven dental management models, we can finally solve long-standing challenges and friction points by providing prompt, appropriate treatment for dental injuries sustained on the job," said Cem Kus, CEO of MTI America.

Enhanced solutions include:

- Dedicated Dental Director
- AI-Driven dental clinical management
- Expanded national network of credentialed quality dentists with WC experience
- Virtual dentist triage and treatment plan development

Real-time TeleDental injury triage

“Having engineered and introduced dental injury solutions decades ago, we are thrilled to partner with the MTI America team to streamline and enhance the accuracy and outcomes of dental claims.,” said Leane St. Peter, CEO of Workforce Dental Solutions.

This united approach, melding people and technologies, ensures injured workers receive the right care at the right time while reducing overall claim spending through clinically validated treatment plans and care pathways.
