

Digital Dentistry Global Market 2024 To Reach \$9.54 Billion By 2028 At Rate Of 11.7%

The Business Research Company's Digital Dentistry Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LANDON, GREATER LANDON, UK, July 26, 2024 /EINPresswire.com/ -- The digital dentistry market has experienced robust growth in recent years, expanding from \$5.50 billion in

2023 to \$6.14 billion in 2024 at a compound annual growth rate (CAGR) of 11.5%. The growth in the historic period can be attributed to the proliferation of private dental clinics and chains, increasing dental disorders, demand for aesthetic dentistry, and increasing geriatric population demanding more dental care.

It will grow to \$9.54 billion in 2028 at a compound annual growth rate (CAGR) of 11.7%. "

The Business Research Company Strong Future Growth Anticipated

The digital dentistry market is projected to continue its strong growth, reaching \$9.54 billion in 2028 at a compound annual growth rate (CAGR) of 11.7%. The growth in the forecast period can be attributed to greater awareness of oral health and the benefits of digital dentistry, expanding dental tourism, integration of tele-

dentistry, enhanced patient experience, and comfort with digital solutions.

Growth Driver Of The Digital Dentistry Market

The increasing prevalence of dental disorders is expected to propel the growth of the digital dentistry market going forward. Dental disorders refer to a range of conditions affecting the teeth, gums, and oral structures, including cavities, gum disease, tooth decay, and oral infections.

The dental disorders are caused due to factors such as poor oral hygiene practices, unhealthy dietary habits, tobacco use, inadequate access to dental care, and aging populations. Digital dentistry is transforming the diagnosis and treatment of dental disorders with technologies such as computer-aided design or computer-aided manufacturing (CAD or CAM) systems, digital imaging, and artificial intelligence (AI) diagnostics, enhancing precision and outcomes.
