

New Home Maintenance Guides Released by Five Star Restoration in the Inland Empire

These articles offer practical advice and emphasize the importance of professional help for home restoration issues

MURRIETA, CALIFORNIA, UNITED STATES, July 26, 2024 /EINPresswire.com/ -- Five Star Restoration, a provider of home restoration services in the Inland Empire, has released several guides aimed at helping homeowners address common household issues. These articles offer advice on managing leaking water heaters, finding reliable water damage experts, and troubleshooting garbage disposals.

Leaking Water Heater: 5 Emergency Steps for Inland Empire Homeowners

Five Star Restoration's guide on leaking water heaters emphasizes critical steps for homeowners. These include turning off the power and water supply, draining the heater, and identifying the leak source. "A leaking water heater demands immediate attention to minimize damage," says Kevin Gray, General Manager of Five Star Restoration. The guide also covers preventative measures through regular maintenance, such as checking the pressure relief valve and flushing the tank annually to prevent sediment build-up, which can lead to leaks and inefficiency.

"We want homeowners to feel confident in handling the initial steps of a water heater leak," Gray explains. "However, it's equally important to be proactive and schedule regular maintenance to prevent these issues from arising in the first place." This emphasis on regular maintenance empowers homeowners to take control of their home's condition.

Finding the Best Water Damage Experts in the Inland Empire

[Choosing the right water damage expert](#) is crucial for home restoration. The guide advises evaluating certifications, experience, and customer reviews to make an informed decision. "Selecting a reliable water damage expert is essential for effective restoration," notes Gray. The article highlights the importance of IICRC certification, which indicates a company's adherence to industry standards and proper training. Additionally, it advises assessing a company's track record and considering customer reviews to gauge reliability and service quality.

"Homeowners should look for experience and positive feedback to ensure they choose a trustworthy service provider," adds Gray. "Our goal is to help homeowners make informed

decisions to protect their homes."

What to Do When a Garbage Disposal Stops Working

[The garbage disposal troubleshooting](#) guide covers various issues, from minor clogs to mechanical failures, offering step-by-step solutions. Gray emphasizes, "Our guide provides practical steps to address common garbage disposal problems." Homeowners are guided through DIY troubleshooting tips such as checking for jams, using a hex key to manually turn the disposal blades, and resetting the unit.

The article reassures homeowners that professional help is always available when needed. "If these steps don't resolve the issue, it's important to consult a professional to prevent further damage and ensure safety," adds Gray.

Five Star Restoration: Committed to Excellence

Five Star Restoration was founded to meet the need for a customer-focused company that operates with kindness, excellent service, and integrity. The company values work-life balance for its team and is dedicated to educating customers throughout the restoration process. "We aim to support homeowners with reliable and efficient restoration services," says Gray. "Our articles are just one way we strive to educate and assist homeowners in maintaining their properties."

Kevin Gray, the General Manager of Five Star Restoration, brings extensive experience in business development and marketing within the restoration industry. He has held key roles at several companies, including Superior Restoration, Dry Force, Inc., and Titan Environmental Solutions, Inc.

At Superior Restoration, he was the Director of Business Development and Marketing, overseeing and growing all business initiatives. He also served as a Project Manager at Titan Environmental Solutions, contributing to their reputation for excellent services and quality customer care throughout California.

Gray's diverse background and leadership skills are pivotal to Five Star Restoration's commitment to providing exceptional service and integrity.

About Five Star Restoration
