External Pacemakers Global Market
Report 2024 – Market Size, Trends, And
Global Forecast 2024-2033*

LANDON, GREATER LONDON, UK, July

29, 2024 /EINPresswire.com/ -- The

[external pacemakers market](#) has

experienced robust growth in recent years, expanding from \$1.44 billion in

2023 to \$1.52 billion in 2024 at a compound annual growth rate (CAGR) of 5.6%. The growth in the historic period can be attributed to the shift towards less invasive surgical techniques, the demand for minimally invasive structural heart devices, ongoing training and education programs for healthcare professionals, rising healthcare expenditure, growing patient preference for non-surgical or minimally invasive treatment options.

Strong Future Growth Anticipated

The external pacemakers market is projected to continue its strong growth, reaching \$1.90 billion in 2028 at a compound annual growth rate (CAGR) of 5.8%. The growth in the forecast period can be attributed to the increasing aging population, growing awareness about heart health,

the implementation of screening programs, favorable reimbursement policies for structural heart procedures, timely regulatory approvals for new structural heart devices.
