

Facial Rejuvenation Market Segments, Drivers, Restraints, And Trends For 2024-2033

The Business Research Company's Facial Rejuvenation Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK, July 29, 2024 /EINPresswire.com/ -- The facial rejuvenation market has experienced robust growth in recent years, expanding from \$2.77 billion in

2023 to \$3.09 billion in 2024 at a compound annual growth rate (CAGR) of 11.3%. The growth in the historic period can be attributed to rising demand for cosmetic surgery procedures, increasing societal emphasis on youthfulness and beauty, celebrity endorsements and media influence, the rise of disposable income and a growing middle class, improvements in safety and efficacy of facial rejuvenation techniques.

Strong Future Growth Anticipated

The facial rejuvenation market is projected to continue its strong growth, reaching \$4.79 billion in 2028 at a compound annual growth rate (CAGR) of 11.6%. The growth in the forecast period can be attributed to the aging population demographic shift, advancements in non-invasive and minimally invasive procedures, growing

awareness about the importance of skincare and self-care, demand for personalized treatment plans, and the globalization of beauty standards.

Growth Driver Of The Facial Rejuvenation Market

The increase in demand for non-invasive facial surgical procedures is expected to propel the growth of the facial rejuvenation market. Non-invasive facial procedures are cosmetic treatments that improve the appearance of the face without requiring surgery or large incisions. The surging
