Growth Driver Of The Sacroiliac Joint Fusion Market

The increasing prevalence of lower back pain is expected to propel the growth of the sacroiliac joint fusion market going forward. Lower back pain refers to discomfort or pain experienced in

the lumbar region of the spine, which includes the area between the bottom of the rib cage and the top of the legs. It is a common condition that can vary in intensity from a dull, constant ache to a sudden, sharp pain. The prevalence of low back pain is due to work stress, sedentary lifestyles, obesity, and dietary factors. Sacroiliac joint fusion alleviates lower back pain and improves overall function and quality of life by stabilizing the joint and reducing abnormal movement.
