

Global Small Volume Parenteral Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company's Global Small Volume Parenteral Market Size, Share And Growth Analysis For 2024-2033

LONDON, GREATER LONDON, UK, July

31, 2024 /EINPresswire.com/ -- The

small volume parenteral market has experienced robust growth in recent

years, expanding from 163.34 billion in

2023 to \$177.26 billion in 2024 at a compound annual growth rate (CAGR) of 8.5%. The growth in the historic period can be attributed to the rising prevalence of chronic diseases, regulatory approvals and government initiatives, pharmaceutical outsourcing trends, and globalization and expansion of pharmaceutical markets.

It will grow to \$247.53 billion in 2028 at a compound annual growth rate (CAGR) of 8.7%."

The Business Research Company

Strong Future Growth Anticipated

The small volume parenteral market is projected to continue its strong growth, reaching \$247.53 billion in 2028 at a compound annual growth rate (CAGR) of 8.7%. The growth in the forecast period can be attributed to the expansion of the biologics market, healthcare infrastructure development, increased hospitalization rates, regulatory approvals, a shift toward home

healthcare, rising investment in healthcare, and global health crises.
