

SupplyChainBrain Names Alpine Supply Chain Solutions a 2024 Great Supply Chain Partner

The award recognizes exceptional supply chain partners that have significantly improved supply chain efficiency for their clients.

NAPLES, FL, USA, August 1, 2024 /EINPresswire.com/ -- [Alpine Supply Chain Solutions](#), a boutique consulting firm specializing in optimizing supply chain investments, announced today that it has been honored as a 2024 Great Supply Chain Partner by SupplyChainBrain. For twenty-one years, SupplyChainBrain has upheld the tradition of recognizing 100 exceptional supply chain partners annually, with 2024 showcasing a diverse array of competitive nominations.

SupplyChainBrain Names Alpine Supply Chain Solutions a 2024 Great Supply Chain Partner

Alpine Named Supply Chain Partner

Each year, SupplyChainBrain invites buyers and partners to nominate vendors or service providers whose technology, logistics, transportation, or consulting solutions have significantly improved their company's supply chain efficiency. Only 100 nominees are selected. Alpine was recognized for delivering strong results for their clients, including Levata, a prominent player in the automatic identification and data capture (AIDC) industry.

“

Earning this distinction for the third year in a row is incredibly inspiring. It underscores our unwavering commitment to ensuring our clients get the most out of their supply chain investments.”

Michael Wohlwend, Alpine Supply Chain Solutions, Managing Principal

As Levata experienced rapid growth and diversification in its product offerings, the company faced significant limitations within its warehouse operations. The Alpine team conducted a comprehensive Storage Type Analysis, examining all of Levata's SKUs. This analysis formed the foundation for designing tailored storage solutions that efficiently accommodate Levata's expanding product range. Together, Alpine and Levata achieved strong

outcomes, including optimized storage capacity, maximized storage utilization, enhanced picking efficiency, reduced travel times, and increased overall operational efficiency.

As Brad Berger, SupplyChainBrain Publisher shares, "Our six-month online poll of supply chain professionals requires a qualified response, asking them to nominate vendors and service providers whose solutions have made a significant impact on their company's efficiency, customer service and overall supply chain performance. This year's field of nominees was highly competitive and overall excellent – coming from all areas of supply chain management. Your company should be proud to be named as one of the 100 Great!"

Michael Wohlwend, Managing Principal at Alpine, stated, "Earning this distinction for the third year in a row is incredibly inspiring. It underscores our unwavering commitment to ensuring our clients get the most out of their supply chain investments. We are deeply appreciative of this recognition, particularly because it comes directly from our customers' nominations."
