

# Global Security Experts, Inc. Issues Consumer Alert About Counterfeit OnGARD Security Door Brace | Door Barricade

*Jordan Frankel, VP of Global Security Experts, Inc., has issued an urgent consumer alert, warning consumers about counterfeit versions of the OnGARD Door Jammer*

ATLANTA, GA, UNITED STATES, August 6, 2024 /EINPresswire.com/ -- Global Security Experts, Inc. Issues Consumer Alert About Counterfeit OnGARD [Security Door Brace](#)

Jordan Frankel, founder of Global Security Experts, Inc., has issued an urgent consumer alert, warning consumers about counterfeit versions of the OnGARD security door brace surfacing online. The counterfeit OnGUARD door security products, originating from Asia, lack several defining features present in the authentic OnGARD [door jammer](#), potentially leaving families vulnerable to violent home invasions.

Jordan Frankel, also known as The Security Sensei, highlighted the severity of the issue, stating, "Recently, a line of counterfeit door braces attempting to replicate the OnGARD Security door brace surfaced on various online retail sites such as Amazon and Walmart. The counterfeits are vastly inferior to the OnGARD in both quality and construction and are missing nearly all of the defining features that set the OnGARD apart as a premium security device."

OnGARD Security Brace | Door Jammer | Door Barricade | Security Door Stopper

## SUPERIOR STRENGTH

The OnGARD utilizes a space-age polymer material superior to steel or aluminum in overall strength and quality.

Won't rust or corrode.

Burglar and vandal resistant.

OnGARD combines its unbelievable strength with the home's floor and foundation to resist violent kick-ins, shoulder slams, and even battering rams.

The OnGARD Stops Violent Intruders in Their Tracks | OnGARD Door Barricade

The counterfeit door braces utilize cheap and weak materials, such as painted steel, that easily rust or corrode, compromising their durability and effectiveness. In stark contrast, the genuine OnGARD security [door stopper](#) is made from a high-strength polymer and is laboratory-certified to withstand up to 3100 pounds of violent force. Frankel emphasized, "The real OnGARD door barricade will never rust, chip, or corrode, and stops intruders in their tracks by combining the strength of the home's floor with OnGARD's high-strength polymer. Meanwhile, the counterfeit door braces crumble when an average-sized man kicks the door once or twice."

A major red flag for consumers is the drastically reduced price often associated with counterfeit merchandise. "If you see what looks like an OnGARD security door product, and the price seems too good to be true, it is," warned Frankel. "You will pay more for the genuine door brace, but you are investing in quality, peace of mind, and a lifetime warranty."

The genuine OnGARD security door brace retails from \$129.00. For more information, visit [globalsecurityexperts.com](http://globalsecurityexperts.com).

About Jordan Frankel and Global Security Experts, Inc.:
