

Gastech 2024 Exhibition to Showcase Latest Energy Solutions and Facilitate Collaboration between Industry Leaders

HOUSTON, UNITED STATES, August 1, 2024 /EINPresswire.com/ --

- With over 800 international exhibitors from across the energy value chain, the Gastech 2024 Exhibition & Conference will be America's largest showcase for cutting edge energy solutions.

- Exhibition will facilitate networking and cross-sector collaboration between the industry's top stakeholders, including international investors and leading energy companies.

- Over 70+ recognized buyers from more than 15 countries set to attend, as they look for the latest projects and technologies that can transform the energy industry and unlock new avenues for clean economic growth.

Gastech 2024, the world's premier platform for natural gas, LNG, hydrogen, climate technologies, energy manufacturing, and low carbon solutions, is returning to Houston this year with a renewed ambition to deliver real climate progress and accelerate low carbon growth. Gastech's renown exhibition floor will be at the heart of these efforts, as international attendees and investors will take in the advancements and innovations emerging across the energy value chain, and pursue transformative investment and partnership opportunities.

The energy transition is underway and the challenges and opportunities that come with transforming the global energy landscape into a low-carbon, and eventually zero-carbon, ecosystem are being felt around the world. In this critical moment, industry leaders are looking for the solutions that will facilitate the journey to net zero and provide the energy security and stability needed to sustain growing population and consumption trends.

Gastech 2024 will serve as the premium platform for industry leaders, policymakers, and experienced energy professionals to unite around this resource's transformative power. Built on a track record of convening the world's foremost energy experts and executives, as well as international ministers and government officials, this year's Strategic Conference will facilitate

the result-driven conversations that can enable continued growth and decarbonization in the natural gas and LNG sector.

Meanwhile, as America's largest showcase for cutting-edge products, services, and innovations in natural gas, LNG, hydrogen, climate technologies, the Gastech 2024 Exhibition will provide an open platform for leading companies to present their latest ventures, and for attendees to network with the energy professionals and innovators who are developing the next generation of low carbon energy solutions.

With over 800 confirmed exhibitors, including everything from industry giants, medium-size enterprises, and cutting-edge start-ups, the exhibition floor is where tangible action will be taken to grow the natural gas and LNG sector and accelerate the best-in-class solutions and projects that can deliver real climate progress. Some of the confirmed international leaders in attendance include the Abu Dhabi National Oil Company, Aramco, Cheniere, Chevron, ConocoPhillips, ExxonMobil, KOGAS, MexicoPacific, Shell, and Woodside.

In addition, 20 country pavilions will showcase leading innovations and cutting-edge projects from around the world, allowing attendees to explore new markets and learn more about groundbreaking energy solutions that are transforming the international energy ecosystem.

The exhibition will feature dedicated areas for the key sectors that are shaping the natural gas and LNG sector and the wider energy industry, including Hydrogen, Climatetech & AI, and Shipping & Marine, enabling cross-sector collaborations that can unlock new opportunities for wide-scale decarbonization and continued growth.

A highlight of this year's exhibition will be the International Hosted Buyers Program, featuring over 70 recognized buyers from more than 15 countries, all on the lookout for the next game-changing energy solutions. To facilitate and encourage networking between these key stakeholders and event exhibitors and attendees, the Gastech Procurement Program will feature a dedicated Meeting Place on the exhibition floor. Through face-to-face meetings and engaging conversations, this hub will connect smaller enterprises and leading companies with energy decision-makers, fostering new business relationships and investment opportunities to grow and decarbonize the energy industry.

Complimenting this unrivalled capacity for networking and business development, the Gastech Procurement Program will also host a free-to-attend Procurement Conference, with leading executives, buyers and suppliers from across the energy value chain sharing their insights on how energy transitions are being advanced through resilient and sustainable supply chain dynamics.

Christopher Hudson, President, dmg events, commented:

"While Gastech's Strategic Conference convenes leading energy stakeholders - including

executives from Chevron, Aramco and BP, as well as energy ministers from Indonesia, Pakistan, and Nigeria - for insightful and high-level conversations on the future of energy, the Exhibition is where the entire industry comes together to accelerate groundbreaking energy solutions and form transformative cross-sector partnerships.

With the latest energy projects and innovations on display, and with globally recognized investors in attendance, this year's exhibition is set to be our most impactful ever, catalyzing the investments and collaborations needed to drive the energy industry forward and unlock a new era of clean economic growth and tangible climate progress."

Whether it's aligning on supportive investment and regulatory frameworks to bolster energy access and affordability, securing funding for innovative gas projects and climate technologies, or demonstrating the latest technologies to improve operational efficiency, Gastech 2024 offers an unrivalled forum for governments and businesses to achieve their economic and climate goals while unlocking new opportunities for success.

Notes to Editor

About Gastech

Taking place annually, Gastech stands as the world's foremost gathering for natural gas, LNG, hydrogen, climate technologies, energy manufacturing, and low carbon solutions. With attendance reaching more than 50,000 international participants, it serves as a pivotal platform where heads of state, government officials, ministers, global business leaders, disruptors, and innovators converge to engage in meaningful conversations on the future of global energy.

This year, Gastech will take place at George R Brown Convention Center in Houston, from 17-20 September 2024.
