/EINPresswire.com/ -- The Dominican Republic has solidified its status as one of the most sought-after tourist destinations in the Caribbean,

welcoming a record-breaking 10 million visitors in 2023. According to Minister Collado, the country saw an impressive influx of 7,863,542 tourists arriving by air and 2,168,209 cruise passengers by sea. This remarkable achievement underscores the nation's thriving tourism industry and its growing appeal on the global stage. With this large increase in 2023, overall it was a 21.6% increase from 2022 and an impressive 36.5% rise from 2019. The country has not only topped the Caribbean's tourist charts but also secured a place among the top five destinations in the Americas.

Minister Collado highlighted, "Reaching 10 million tourists between air and cruise ships is a fact that should fill the entire country with pride, regardless of political flags, since each of these visitors are friends of the country who contribute to development, employment to the countryside, to construction, and the entire productive apparatus of the country continuing to grow."

These remarkable figures underscore the Dominican Republic's substantial growth in tourism. Since 2019, the nation has surged from 6.4 million visitors to over 10 million, making it the Caribbean leader in post-COVID tourism recovery. This growth has been acknowledged by numerous international organizations, further affirming the Dominican Republic's position as a premier travel destination.
