Ensoftek Announces Partnership with Blueprint to Enhance DrCloudEHR with AI-Powered Scribe Technology

Blueprint's AI-driven capabilities seamlessly integrate with DrCloudEHR to introduce the groundbreaking DrCloudEHR AI-Scribe.

BEAVERTON, OREGON, UNITED STATES, August 6, 2024 /EINPresswire.com/ -- Ensoftek, creators of DrCloudEHR™, are thrilled to reveal our new partnership with Blueprint, an AI-powered clinician enablement platform. This collaboration will integrate advanced AI technology into DrCloudEHR, boosting efficiency and accuracy in clinical documentation for healthcare professionals.

Blueprint's AI-driven capabilities seamlessly integrate with DrCloudEHR to introduce the groundbreaking DrCloudEHR AI-Scribe. This innovative feature simplifies documentation, enabling clinicians to prioritize patient care over administrative duties.

How It Works: Easy as 1-2-3
Record a Live Session or Dictate a Summary: With a single click, clinicians can record their live sessions or dictate summaries directly into the platform.
AI-Powered Note Generation: Blueprint's proprietary AI engine then generates a compliant clinical note within seconds, ensuring accuracy and thoroughness.
Seamless Integration: The generated notes can be effortlessly copied into DrCloudEHR, ready for immediate use.

Clinician Benefits
DrCloudEHR AI-Scribe offers substantial benefits for mental health clinicians, including:
Increased Efficiency: Clinicians can save significant time on documentation, reducing administrative burdens and allowing more focus on patient interactions.
Improved Accuracy: AI-driven notes ensure patient conversations are accurately captured and documented, enhancing the quality of care.
Enhanced Adoption of Measurement-Informed Care: With the efficiency of AI-Scribe, clinicians are seeing up to a 30% increase in the adoption of measurement-informed care practices.
HIPAA Compliance: The integration ensures that all data handling complies with HIPAA regulations, maintaining the highest standards of patient privacy and security.

Economic and Stress-Free Solution

DrCloudEHR AI-Scribe is a cost-effective solution that streamlines clinical note-taking. With a user-friendly interface, clinicians can increase productivity and reduce stress for a more efficient workflow.

"We are thrilled to partner with Blueprint to bring AI-powered scribe technology to DrCloudEHR," said Ramana Reddy, CEO at Ensoftek. "This partnership aligns with our commitment to enhancing clinician efficiency and improving patient care through innovative technology."

About EnSoftek / DrCloudEHR™
DrCloudEHR™ is a digital health solution to redefine whole-person care and elevate the standard of value-based healthcare delivery. It seamlessly integrates clinical, executive, and financial data, harnessing the power of actionable intelligence. It is a transformative platform that enhances care coordination, streamlines operations, and fosters a tightly integrated, efficient healthcare delivery network. Its comprehensive approach is strategically designed to increase access to healthcare, facilitate recovery, and optimize therapeutic outcomes, revolutionizing healthcare delivery and management.

DrCloudEHR serves a range of health and human services agencies/providers/treatment centers, including public health, mental health/psychiatry, substance abuse/addiction, crisis services, family and children's services, intellectual/developmental disabilities, education/school health centers, veteran homes, and certified community behavioral health centers.
