Chatbot to Expand the L&D Charter: Live Demonstration

ESource Corporation will do a live demonstration of AI chatbot technology that's been tuned for L&D internal use.

SPARTA, NEW JERSEY, UNITED STATES, August 6, 2024 /EINPresswire.com/ -- ESource Corporation is thrilled to announce an upcoming live demonstration of its innovative Learning & Development (L&D) Chatbot, scheduled for August 13, 2024. This demonstration is designed to showcase how AI-powered chatbots can transform the L&D charter by adding another learning and coaching tool to its portfolio of blended learning solutions.

Live Demo

ESOURCE

L&D Chatbot

Tuesday, 9 AM PT | Noon Eastern
August 13, 2024

Joe DiDonato, Senior Advisor and member of ESource's Customer Advisory Board commented, "We faced the same opposition to online learning back in the 80s. Hopefully, L&D organizations will see this as just another powerful tool to add to their portfolio of blended learning solutions." He said that L&D should be the keeper of these chatbots because of L&D's extensive knowledge of learning, learning objectives, DEI biases, and integration into other company software systems, amongst other learning pedagogies.

Event Details:
- Date: August 13, 2024
- Time: 10:00 AM - 11:30 AM (PST)
- Registration Link: <u>Register for Live Demonstration</u>

Why Attend?

In the rapidly evolving field of Learning & Development, staying ahead requires leveraging the

latest technologies. Our L&D Chatbot is designed to provide instant access to training materials, answer frequently asked questions, and offer help designing personalized learning paths based on individual roles. This live demonstration will give L&D professionals an in-depth look at how AI chatbots can revolutionize a company's training programs by experiencing its power first-hand.

Key Takeaways:

1. Understanding Chatbot Capabilities:
• Learn about the core functionalities of L&D Chatbots.
• Discover how AI can enhance learning experiences and improve performance on the job.
2. Interactive Demonstration:
• See the chatbot in action with real-time examples.
• Compare course development time with traditional methodologies.
• Explore how the chatbot can be customized to meet your organization's specific needs.
3. Q&A Session:
• Engage with your peers during a live Q&A session.
• Get answers to your questions about implementing and optimizing chatbot technology in your L&D programs.

Featured Presenter:

Joe DiDonato, Senior Advisor to ESource Corporation, will lead the demonstration. With extensive experience in AI, L&D, and building a wide variety of chatbots, Joe will provide valuable insights and practical tips to help practitioners integrate chatbot technology into their training initiatives.

Post-Demonstration Workshop:

Following the live demonstration, attendees are invited to join our "Jumpstart Your AI Program Workshop." This hands-on workshop offers personalized training and guidance to help you implement AI techniques in your organization. Don't miss this opportunity to take your L&D initiatives to the next level.
