

# One Page Inventory Introduces Powerful Financial Feature to Help eCommerce Sellers Fight Fees and Gain Profitability

*New Financial Feature Empowers eComm Sellers to Maximize Profitability by Providing Unparalleled Insights into Fees and Costs*

SANTA BARBARA , CA, USA, August 7, 2024 /EINPresswire.com/ -- One Page Inventory, a trailblazer in multi-channel inventory management solutions and creator of the GenClearAi interface, is proud to announce the launch of its robust new financial feature. This enhancement provides unparalleled insights into inventory financials, empowering eCommerce sellers to finally understand their fees, sales costs, and bottom line profitability.

## Comprehensive Financial Visibility

The new financial feature offers a holistic view of critical financial metrics, including:

**Unit Totals and Potential Gross Sales:** Easily track unit totals and potential gross sales, gaining a clear understanding of inventory performance and revenue potential.

**Cost of Goods Sold (COGS) and Operational Costs:** Monitor COGS and operational expenses meticulously, ensuring a comprehensive grasp of cost structures.

**Potential Profit and Manufacturer Costs:** Evaluate potential profit margins and manufacturer costs, allowing for strategic financial planning and cost management.

Businesses can now break down financial data by total inventory or by individual warehouses, providing precise, localized analysis. The feature also includes:

Marketplace-Specific and Per Unit Analysis: Access detailed financial metrics by marketplace and per unit, facilitating targeted and strategic decision-making.

Downloadable Financial Reports: Seamlessly download comprehensive financial reports, enabling efficient data sharing and in-depth analysis.

### Empowering Smarter Financial Decisions

“With the introduction of our new financial feature, we aim to equip businesses with the tools necessary to navigate the complex eCommerce financial landscape and achieve max profitability,” said Ryan Judy, CEO of One Page Inventory. “Combined with our GenClearAi interface, this new feature offers unmatched speed and clarity when making inventory purchasing and management decisions.”

The financial feature integrates seamlessly with existing One Page Inventory tools, providing a user-friendly interface and intuitive navigation. Users can quickly adapt to the new capabilities, leveraging the feature to maximize their operational efficiency and financial performance.
