Rising Demand for Electric and Hybrid Vehicles Boosts Market Growth

Looking ahead, the all-wheel drive market is expected to continue its strong growth trajectory, reaching \$52.55 billion by 2028, growing at a CAGR of 7.3%. This forecasted growth is attributed to the rising adoption of electric and hybrid vehicles, advancements in vehicle connectivity, urbanization favoring compact AWD vehicles, stringent

regulatory emissions standards, and integration of autonomous vehicle technologies. Major trends anticipated in this period include the adoption of dynamic torque vectoring systems, smart connectivity with over-the-air updates, weight reduction technologies, collaborative efforts for autonomous vehicle integration, and increasing global market penetration in emerging economies.
