

# Candied & Semi-Candied Fruit Market Size Is Estimated To Reach \$838.8 Mn With Grow At 2.3% CAGR By 2034

*Well-established Bakery Industry in North America & Europe Providing Lucrative Opportunities for Manufacturers of Candied & Semi-Candied Fruits: Fact.MR Report*

ROCKVILLE, MD, UNITED STATES, August 7, 2024 /EINPresswire.com/ -- According to a new research report released by Fact.MR, the global [candied & semi-candied fruit market](#) is projected to reach a size of US\$ 668.2 million in 2024 and expand at a CAGR of 2.3% over the next ten years (2024 to 2034).

To increase the appeal of their finished baked goods, skilled bakers are using unique ingredients such as candied fruits, toppings, glazes, frostings, and others, which is fueling the growth of the candied and semi-candied fruit market. Manufacturers of candied and semi-candied fruits in North America and Europe are finding great opportunities as a result of the well-established and expanding bakery industry in these regions.

Sales of baked goods and confections are also increasing due to the proliferation of e-commerce platforms. Delicious and inventive confectionery products that are readily available online draw in customers. Prominent rivals in the worldwide marketplace are emphasizing a range of goods and producing goods that suit the tastes of their customers. The desire for decadent foods among consumers is also driving the market for candied & semi-candied fruits.

Both developed and emerging nations like eating fruit snacks. Because they are becoming more conscious of their nutrient levels, people are learning more about nutritious snacks.

What is the US market's appetite for semi-candied and candied fruits?

The US is seeing an increase in sales of semi-candied and candied fruits as consumers seek for healthier snack options. Customers consider these fruits to be healthier than many other snack options because they offer a sweet and tasty substitute for typical snacking. Furthermore, candied fruits' attractiveness is bolstered by the food industry's growing need for unusual and exotic flavors, which appeal to a wide spectrum of palates.

The demand for candied and semi-candied fruits is increasing due to their popularity in baking and confectionery. These fruits add a pop of flavor and texture to meals, increasing overall consumption. Sales of semi-candied and candied fruits are increasing as a result, following

gastronomic trends and consumer preferences.

## Why Is China a Profitable Market for Producers of Candied and Semi-Candied Fruit?

By 2024, China is expected to account for around half of the global market for semi-candied and candied fruit. China's market is important to East Asia for a number of reasons. The popularity of sweet and candied treats is largely due to the rich cultural tradition that supports their sales. China's demand for premium candied and semi-candied goods has increased due to the country's growing interest in gourmet and traditional cuisine. The retail infrastructure and the nation's strong distribution networks are further variables that facilitate the accessibility of these products to consumers in different parts of the country.
