

Moihey Fine Jewelry & Diamonds Empowers Future Jewelers at Annual Computer-Aided Design Jewelry Program for Summer RISE

WASHINGTON, DISTRICT OF COLUMBIA, UNITED STATES, August 7, 2024 /EINPresswire.com/ -- [Moihey Fine Jewelry & Diamonds](#), a Black-owned and US Army Veteran-owned global jewelry brand, has successfully concluded the 2024 installment of the Moihey Mine to Finger 3D Jewelry Program as part of the Montgomery County Public Schools' (MCPS) [Summer RISE](#) initiative. This three-week program equipped MCPS high school students with skills in the jewelry business, providing valuable knowledge about jewelry and diamonds, managing a diamond business, creating their own pieces, and exploring how to start their own companies.

Every summer, participating students have the unique opportunity to use Moihey's state-of-the-art 3D jewelry design software, to create their own custom gemstone jewelry pieces. This hands-on experience is inspired by the themes of the book "My Crystal Powers," authored by Moihey Fine Jewelry & Diamonds' President and CEO, Dan Moijueh. Each student receives a complimentary copy of the book, further igniting their interest in the fascinating world of gemstones and jewelry design. This year, Moihey collaborated with students to create the "Summer Rise" collection to be released by the end of summer.

Daniel Moijueh, the visionary behind Moihey Fine Jewelry & Diamonds, states, "Our dedication to the community transcends jewelry sales. We believe that education is the key to empowerment. This annual program is a reflection of our long-term commitment to education and giving back. Through the Moihey Mine to Finger 3D Jewelry Program, we are thrilled to provide students with valuable knowledge about jewelry and diamonds. Our brand's core values center around the jewelry education of youth, which is the "JEY" in Moihey. By focusing on education, we aim to

inspire the next generation of jewelers and entrepreneurs."

The program's closing ceremony, held at the Bethesda North Marriott Hotel & Conference Center on July 25, 2024, was a significant event featuring distinguished guest speakers, including Portia Wu, Secretary of Labor, Maryland State; Ted Xenochristos, Founder and Chief Concept Officer of CAVA; and Cynthia Cifuentes, VP of Brand Communications and Community Engagement of Kaiser Permanente Mid-Atlantic Region. Governor of Maryland Wes Moore also delivered compelling keynote addresses.

Moihey Fine Jewelry & Diamonds remains at the forefront of promoting education, knowledge, and superior craftsmanship in the jewelry industry. The success of the Moihey Mine to Finger 3D CAD Jewelry Program is a testament to the brand's dedication to positively impacting young learners' lives.

“

Our dedication to the community transcends jewelry sales. We believe that education is the key to empowerment. This annual program is a reflection of our long-term commitment to education...”

Daniel Moijueh

To amplify this initiative, the company has established the Mine to Finger 3D CAD Academy, with its first courses set to begin in September 2024. All certificate holders from the Summer RISE Moihey Mine to Finger 3D Jewelry Program are eligible to apply for these advanced courses.
