The group says, "A Navy Ship Veteran is still the top work group for individuals who will develop mesothelioma or asbestos exposure lung cancer in the USA because they would have had so much exposure to asbestos in the service-especially before the mid-1980s. Typically a Navy Ship Veteran who will develop mesothelioma or asbestos exposure lung cancer worked in a ship's engine room, a machine-repair shop, or as part of a maintenance or repair crew on their ship.

Additionally, about half the Navy Veterans we have helped over the last two decades were exposed to asbestos at a shipyard where their ship was being repaired or undergoing an overhaul.

"If your husband or dad is a Navy Veteran with just diagnosed mesothelioma or asbestos exposure lung cancer anywhere in Michigan, please call the amazing legal team at Zamler Shiffman & Karfis at 866-714-6466.
