40th independent private radiology practice to the coalition with Wake Radiology, which serves patients in the North Carolina Triangle region from 14 locations. Wake Radiology represents the coalition's seventh group from the Tar Heel State.

"We are thrilled to grow our coalition with the highly subspecialized independent private practice Wake Radiology," said Scott Bundy, MD, FACR, CEO and Chair, Strategic Radiology. "The practice has served the Triangle with distinction since 1953, providing hospital partners and patients with excellent medical imaging and intervention

and introducing many novel techniques and technologies."

As the region's largest and most respected outpatient imaging practice, Wake Radiology UNC REX brings together the knowledge of 60+ radiologists, compassionate service, and advanced technologies, with a commitment to obtaining the best images possible. The practice's radiologists are board-certified by the American Board of Radiology (ABR). In addition to their fellowship training, many radiologists hold a Certificate of Added Qualifications, and all of Wake Radiology's physicians voluntarily participate in the ABR Maintenance of Certification program.

"Quality has always been, and will continue to be, our hallmark, reflecting our unwavering commitment to excellence in all aspects of our services," said Brent Townsend, MD, president and managing partner, Wake Radiology. "We look forward to joining this community of like-minded physicians and practice executives and to sharing, collaborating, and working together to improve the value of all of our services."

About Wake Radiology UNC REX Healthcare  
Founded in 1953, Wake Radiology UNC REX Healthcare is proud to be the oldest and largest outpatient imaging provider in the Triangle. With 14 locations, it offers comprehensive diagnostic imaging services, including MRI, CT scans, X-rays, ultrasound, and 3D mammography, in addition to minimally invasive interventional radiology procedures. By integrating cutting-edge technologies, Wake Radiology enhances access to specialized imaging services and reduces costs for patients in the region.
