

AI and Educational Tools Empower Black-Owned Businesses to Overcome Barriers and Achieve Long-Term Success

Pioneering Platforms Join Forces to Equip Black-Owned Businesses with Essential Tools and AI-Powered Solutions for Success.

SACRAMENTO, CALIFORNIA, UNITED STATES, August 9, 2024
/EINPresswire.com/ -- We Thrive Above and Business Departments AI Empower Black Entrepreneurs with 500 Free Subscriptions Each During [National Black Business Month](#)

Resources for Black-Owned Businesses

As part of their commitment to fostering diversity and empowering underserved communities, We Thrive Above and Business Departments AI are pleased to announce a joint initiative aimed at supporting Black entrepreneurs during Black Business Month this August. This collaboration

will provide 500 free subscriptions to each platform, offering essential tools and resources for personal and professional growth, as well as, leveraging artificial intelligence to streamline business operations.

“

We are tired of seeing Black-owned businesses fail disproportionately without the basic support & tools that should be readily accessible to get them to their next level of success.”

says Latifah Abdur

We Thrive Above is a leading subscription-based platform founded by Sylmia Britt, dedicated to equipping individuals with educational and training resources for both personal development and professional advancement. Through a curated selection of courses and materials, We Thrive Above empowers you to enhance skills and achieve career

goals effectively.

Business Departments AI, founded by Latifah Abdur, specializes in helping small business owners harness the power of artificial intelligence to optimize their operations, increase productivity, and achieve more in less time. Their [AI tools for small businesses](#) is designed to

simplify complex tasks and empower entrepreneurs to focus on strategic growth initiatives.

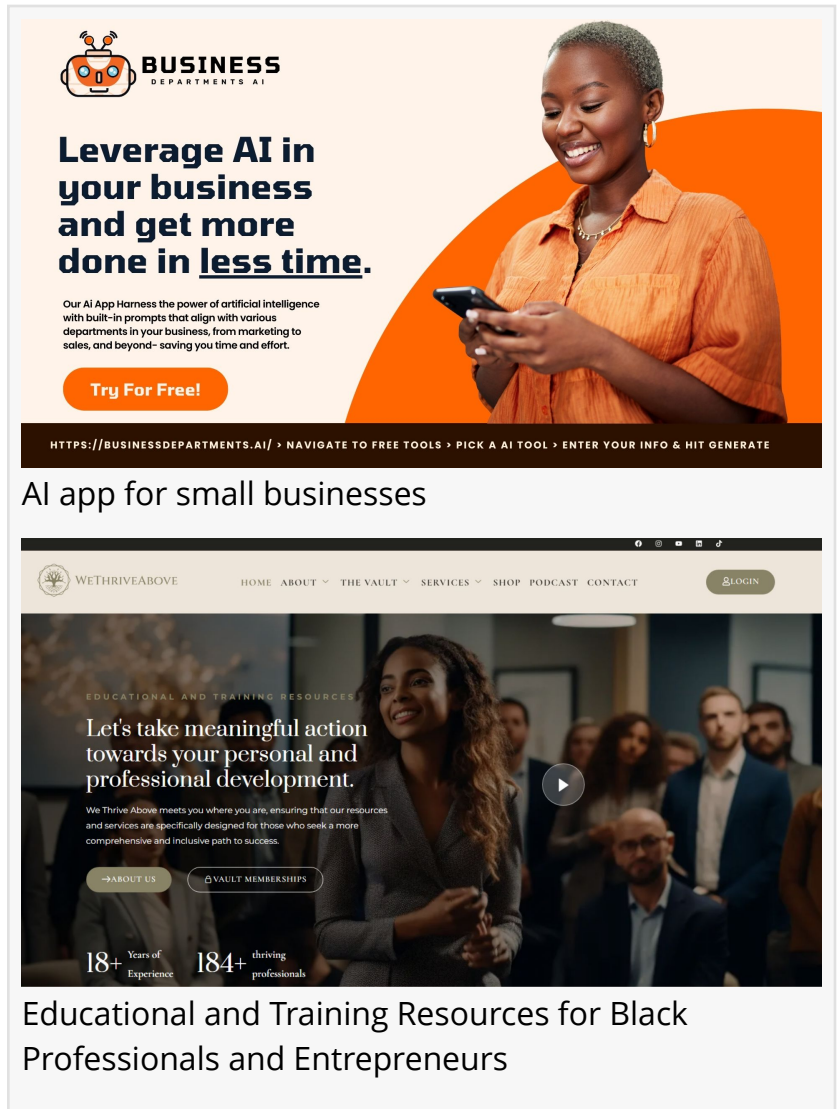

Recent data supports Abdur's sentiments. "The [U.S. Census Bureau](<https://www.census.gov/newsroom/press-releases/2022/annual-business-survey-characteristics.html>) released the 2021 Annual Business Survey (covering 2020), showing an estimated 140,918 Black-owned businesses with employees in the country, earning \$141.1 billion in annual receipts and employing 1.3 million workers. Yet, according to [Brookings](<https://www.brookings.edu/research/black-owned-businesses-in-u-s-cities-the-challenges-solutions-and-opportunities-for-prosperity/>), Blacks comprise 14.2% of the U.S. population, but only own 2.3% of all employer firms." - <https://www.forbes.com/sites/allbusiness/2023/02/20/reports-show-black-small-businesses-still-face-major-challenges/>

Why This Initiative Matters

In observance of Black Business Month, this initiative holds significant importance in addressing the unique challenges faced by Black entrepreneurs. Access to quality education, training, and advanced technologies like AI is often limited, impacting Black entrepreneurs ability to compete on a level playing field. By providing 500 free subscriptions to each platform, We Thrive Above and Business Departments AI aims to break down barriers and empower Black entrepreneurs with the tools they need to succeed.

"This initiative is inspired by two Black women with the passion to uplift other Black Entrepreneurs that are traditionally left out," says Sylmia Britt. Britt continued, "It's about creating pathways for success and fostering a community where everyone has the opportunity to thrive."

How to Participate

BUSINESS DEPARTMENTS AI

Leverage AI in your business and get more done in less time.

Our AI App Harness the power of artificial intelligence with built-in prompts that align with various departments in your business, from marketing to sales, and beyond- saving you time and effort.
