Growth Driver Of The Ulcerative Colitis Market

The increasing healthcare expenditure is expected to propel the growth of the ulcerative colitis market going forward. Health expenditure refers to all spending for health-related services, family planning activities, nutrition activities, and emergency help, but excludes expenses for drinking water and sanitation. Increased healthcare spending can benefit ulcerative colitis sufferers by improving access to medical care and therapies. Hospitalization for ulcerative colitis

can be significant, and hospital readmissions for flares can result in higher mortality and healthcare costs.
