

Global Ocular Hypertension Treatment Market Overview And Statistic For 2024-2033

The Business Research Company's Ocular Hypertension Treatment Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK,
August 9, 2024 /EINPresswire.com/ --

The global ocular hypertension treatment market has demonstrated consistent growth, increasing from \$5.14 billion in 2023 to \$5.34 billion in

2024, at a compound annual growth rate (CAGR) of 3.7%. It will grow to \$6.1 billion in 2028 at a compound annual growth rate (CAGR) of 3.4%. This growth can be attributed to an aging population, the high incidence of glaucoma, advancements in diagnostic tools, increased awareness and screenings, lifestyle changes, and urbanization.

Increasing Aging Population Drives Market Growth

[The aging population is](#) a significant factor driving the growth of the ocular hypertension treatment market. Ocular hypertension becomes more prevalent with age, and as individuals grow older, the risk of elevated intraocular pressure increases. Regular eye examinations become crucial for early detection and management. For

example, Australia’s population aged 65 and over is projected to grow by 54%, reaching 6.66 million by 2041, highlighting the increasing need for effective ocular hypertension treatments.
