“

You should sell the meat and coleslaw as a reheatable kit so people can make their own sandwiches at home! I need a little pack of this!”

Originally launched as a mobile scratch kitchen by Chef Keith and co-founder Jocelyne Williams, Meat the Veggies is now poised to bring this customer favorite to restaurant menus and homes across the nation. In anticipation of the full market release, Meat the Veggies will host a soft launch of the Original Pulled Oxtail Meat™ product for invited guests in Fall 2024. This exclusive event will give attendees a first taste of the product and a glimpse into the future of pulled oxtail cuisine.

The Original Pulled Oxtail Meat™, featured in Meat the Veggies' signature sandwich, is a unique creation that showcases real, tender oxtail meat, expertly prepared to be the star of the dish. This culinary delight, a real meat niche beef protein by Chef Keith, offers an abundance of flavorful meat. Unlike typical oxtail offerings that often emphasize the bone, this innovation focuses on delivering flavorful meat. Chef Keith's dedication to quality and taste has resulted in a product that stands out in the culinary world, offering a rich, unique flavor profile that customers rave about.

Community Engagement and High-Profile Events

Meat the Veggies has also made a significant impact in the community through its participation in prominent events. The team was recently invited to the South Florida HBCU Picnic on July 13th and Key2MIA's 'The Cookout' tour on July 20th. Key2MIA (@key2mia) commented, "I was thrilled to partner with Meat the Veggies during our summer tour series, 'The Cookout'. The tour focused on Miami Black history and highlighted a series of Black-owned establishments that contribute so much to the community. Not only were our tour attendees provided with the historical significance of the home base of Meat the Veggies, they also got a unique blend of flavors that they can't find anywhere else. Attendees raved about the signature pulled oxtail, broccolini and signature sauces. It was truly a pleasure partnering with Meat the Veggies to make this experience memorable and successful."

Local influencer Daphne Montoya also praised the oxtail sandwich, saying, "You should sell the meat and coleslaw as a reheatable kit so people can make their own sandwiches at home! I need a little pack of this!"
