

# Lucid Bots Earns Top 150 Spot on the Inc. 5000 List of Fastest Growing Companies

*Lucid Bots, US-made AI robotics company builds intuitive, productive and responsible robots that uplift humanity, enhance worker safety and improve efficiency.*

CHARLOTTE, NORTH CAROLINA, UNITED STATES, August 13, 2024

[/EINPresswire.com/](https://EINPresswire.com/) -- Lucid Bots, a

Charlotte, NC-based AI robotics

company, has landed at #143 on the

2024 Inc. 5000, its annual list of the

fastest-growing private companies in

America! This is a first for Lucid Bots,

the startup on a mission to uplift

humanity by building the world's most

intuitive, productive and responsible

robots. Lucid Bots designs, engineers,

manufactures, and supports [its products, which include the Sherpa, a cleaning drone](#), and the

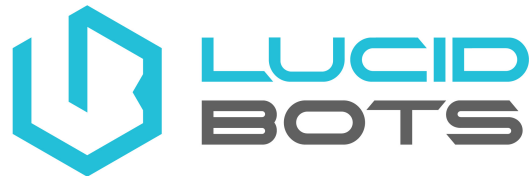

[Lavo Bot, a surface cleaning and pressure-washing robot](#), both domestically and internationally.

Lucid Bots' robotic [products are elevating performance for a growing number of customers](#)

“

Being on the Inc. 5000 is a tremendous honor, underscoring our team's dedication and growth. It highlights our commitment to building the world's most intuitive, productive, and responsible robots.”

*Andrew Ashur, CEO*

Lucid Bots Advanced Robotics Solutions Help Facilities Maintenance Businesses and Management Focus on Worker Safety, Enhance Customer Experiences and Achieve Unprecedented Levels of Efficiency.

around the world. The company recently acquired Avianna, an AI company that enables robots to understand human language and operate autonomously while performing dirty and dangerous jobs. The integration of Avianna AI technology into Lucid Bots' Sherpa cleaning drone and Lavo Bot surface cleaning robot allows people to communicate directly with their robots, making the toughest cleaning projects even easier. Lucid Bots' products can be seen cleaning exterior windows, building facades and surfaces in real estate, retail, healthcare, hospitality and universities around the world.

The Inc. 5000 list for 2024 highlights companies that have achieved rapid revenue growth despite

facing inflation, increasing capital costs, and persistent hiring difficulties. The average median revenue growth rate over the past three years for the top 500 companies on this list is an impressive 1,637 percent. Collectively, these companies have contributed significantly to the economy, adding 874,458 jobs over the last three years. The prestigious ranking provides a data-driven look at the most successful companies within the economy's most dynamic segment—its independent, entrepreneurial businesses. Microsoft, Meta, Chobani, Under Armour, Timberland, Oracle, Patagonia, and many other household-name brands gained their first national exposure as honorees on the Inc. 5000.

Lucid Bots is a Y Combinator-backed company with investments from Cubit Capital, Idea Fund Partners, Danu Ventures, and others. The company raised \$9M in Series A funding in May of 2024 and was recently named a member of the NVIDIA Inception Program, designed to help startups evolve faster through cutting-edge technology, opportunities to connect with venture capitalists, and access to the latest technical resources. Lucid Bots is on a fast track to improve the lives of workers and companies around the world.
