Advanced Probe Card Global Market
Report 2024 – Market Size, Trends, And
Global Forecast 2024-2033*

LONDON, GREATER LONDON, UK,
August 15, 2024 /EINPresswire.com/ --

The [advanced probe card market](#) has experienced robust growth in recent years, expanding from \$1.13 billion in

2023 to \$1.22 billion in 2024 at a compound annual growth rate (CAGR) of 7.2%. The growth in the historic period can be attributed to increased semiconductor complexity, growth of consumer electronics, expansion of data centers, automotive industry innovations, and higher production of advanced ICs.

It will grow to \$1.61 billion in 2028 at a compound annual growth rate (CAGR) of 7.3%.

Strong Future Growth Anticipated

The advanced probe card market is projected to continue its strong growth, reaching \$1.61 billion in 2028 at a compound annual growth rate (CAGR) of 7.3%. The growth in the forecast period is attributed with the growth in electric and autonomous vehicles, expansion of wearable devices, increased investments in semiconductor

manufacturing, rising production of health monitoring devices, and rising semiconductor production.

Growth Driver Of The Advanced Probe Card Market

The growth of the semiconductor industry is expected to propel the growth of the advanced probe card market going forward. The semiconductor industry refers to the sector engaged in

the design, manufacturing, and sale of semiconductor devices, which are essential components in modern electronic equipment. The semiconductor industry is growing due to increasing demand for advanced electronics and technology in various sectors, including consumer electronics, automotive, and telecommunications. Advanced probe cards are essential in the semiconductor industry for enabling precise and efficient testing of semiconductor wafers, thereby ensuring the high quality and reliability of chips.

Major Players And Market Trends

Key players in the advanced probe card market include Tokyo Electron Limited, Advantest Corporation, FormFactor Inc., TT Electronics plc, Technoprobe S.p.A., ESPEC Corporation (ESPEC Group), Micronics Japan Co. Ltd. (MJC).

Major companies operating in the advanced probe card market are adopting a strategic partnership approach to enhance technological capabilities and market reach. A strategic partnership refers to a collaborative relationship between two or more organizations where they combine their resources, expertise, and efforts to achieve common goals or objectives.

Segments:

- 1) By Technology: Micro-Electro-Mechanical Systems (MEMS), Cantilever, Vertical
- 2) By Material: Tungsten, Copper Clad Laminated, Aluminum, Other Materials
- 3) By Application: Foundry And Logic, Dynamic Random Access Memory (DRAM), Flash, Parametric, Other Applications

Geographical Insights: Asia-Pacific Leading The Market

Asia-Pacific was the largest region in the advanced probe card market in 2023. The regions covered in the advanced probe card market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

Advanced Probe Card Market Definition

An advanced probe card is a sophisticated testing device used in semiconductor manufacturing to ensure the functionality and quality of integrated circuits by enabling precise and reliable testing of semiconductor wafers. These probe cards employ advanced technologies such as micro-electromechanical systems (MEMS), vertical and horizontal probe structures, and fine-pitch probing to meet the demands of modern, complex semiconductor devices.

[Advanced Probe Card Global Market Report 2024](#) from [The Business Research Company](#) covers

the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Advanced Probe Card Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on advanced probe card market size, advanced probe card market drivers and trends, advanced probe card market major players, advanced probe card competitors' revenues, advanced probe card market positioning, and advanced probe card market growth across geographies. The advanced probe card market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.

About The Business Research Company

The Business Research Company has published over 15000+ reports in 27 industries, spanning 60+ geographies. The reports draw on 1,500,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders.

Global Market Model – Market Intelligence Database

The Global Market Model, The Business Research Company's flagship product, is a market intelligence platform covering various macroeconomic indicators and metrics across 60 geographies and 27 industries. The Global Market Model covers multi-layered datasets that help its users assess supply-demand gaps.
