

Distributed Antenna System (DAS) Market Segments, Drivers, Restraints, And Trends For 2024-2033

The Business Research Company's Distributed Antenna System (DAS) Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK,
August 16, 2024 /EINPresswire.com/ --
The [distributed antenna system \(DAS\) market](#) has experienced robust growth in recent years, expanding from \$12.16 billion in 2023 to \$13.59 billion in 2024

at a compound annual growth rate (CAGR) of 11.8%. The growth in the historic period can be attributed to increasing demand for robust connectivity solutions, shift towards a more connected environment, growing need for seamless communication, rising need for spectrum efficiency, and rising smartphone penetration.

Strong Future Growth Anticipated

The distributed antenna system (DAS) market is projected to continue its strong growth, reaching \$21.29 billion in 2028 at a compound annual growth rate (CAGR) of 11.9%. The growth in the forecast period can be attributed to the growing adoption of 5G technology, increasing adoption of smart cities and IoT, rising demand for high-speed

connectivity, growing importance of neutral-host ownership, and increasing adoption of hybrid DAS solutions.

Growth Driver Of The Distributed Antenna System (DAS) Market

The growing mobile data traffic is expected to propel the growth of the distributed antenna

system (DAS) market going forward. Mobile data traffic refers to the amount of internet content delivered to mobile devices such as smartphones and tablets over a wireless cellular connection. The mobile data traffic is increasing due to improved device capabilities, increased processing power and storage, enable users to consume more data-intensive content. Distributed antenna system helps in managing mobile data traffic in high-density areas by distributing 5G signals across multiple antennas, ensuring consistent speeds and reliable coverage for users.

Major Players And Market Trends

Key players in the distributed antenna system (DAS) market include AT&T Inc., Corning Incorporated, American Tower, CommScope, Huber+Suhner, Comba Telecom Systems Holdings Limited.

Major companies operating in the distributed antenna system (DAS) market are developing innovative technological solutions such as C-band modules, to enhance network capacity and performance. C-band modules refer to components or devices that operate within the C-band frequency range, which spans from 3.7 GHz to 3.98 GHz. These modules are designed to support various applications, including satellite communications, Wi-Fi, and 5G networks.

Segments:

- 1) By Offering: Hardware, Services
- 2) By Technology: Active Distributed Antenna System (DAS), Hybrid Distributed Antenna System (DAS), Passive Distributed Antenna System (DAS)
- 3) By Coverage: Indoor, Outdoor
- 4) By Ownership: Carrier Ownership, Neutral-Host Ownership, Enterprise Ownership
- 5) By End-User: Manufacturing, Healthcare, Government, Transportation, Sports And Entertainment, Telecommunications, Other End-Users

Geographical Insights: North America Leading The Market

North America was the largest region in the distributed antenna system (DAS) market in 2023. Asia-Pacific is expected to be the fastest-growing region in the forecast period. The regions covered in the distributed antenna system (DAS) market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

Distributed Antenna System (DAS) Market Definition

A distributed antenna system (DAS) is a network of spatially separated antennas nodes connected to a common source, via fiber optic cable or coaxial cable to provide wireless coverage within a specific area. The purpose of DAS is to ensure reliable and robust wireless connectivity, improving communication and data transmission in areas where traditional signal coverage is weak or obstructed.

Distributed Antenna System (DAS) Global Market Report 2024 from The Business Research Company covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Distributed Antenna System (DAS) Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on [distributed antenna system \(DAS\) market size](#), distributed antenna system (DAS) market drivers and trends, distributed antenna system (DAS) market major players, distributed antenna system (DAS) competitors' revenues, distributed antenna system (DAS) market positioning, and distributed antenna system (DAS) market growth across geographies. The distributed antenna system (DAS) market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
