BETHLEHEM, PA, USA, August 15, 2024 /EINPresswire.com/ -- DICE Dental offers affordable [dental implants](#) to patients in the Lehigh Valley area.

Dental implants are a proven solution for replacing missing teeth, significantly enhancing oral health and self-confidence. At DICE Dental, a single dental implant in Bethlehem is priced at \$1,450, which includes the abutment and crown.

DICE Dental offers dental implants, crowns, and extractions in Bethlehem.

“

We're dedicated to ensuring that our patients have a successful dental implant treatment, from the first consultation to post-surgical care. ”

Dr. Damien Ren

Dr. Damien Ren, dentist at DICE Dental, states, “We're dedicated to ensuring that our patients have a successful dental implant treatment, from the first consultation to post-surgical care. We also offer supplemental treatments to improve success rates.”

The dental implant process generally takes about six months to complete. Initially, a titanium post is surgically implanted into the jawbone, acting as a replacement for the missing tooth root. Over time, the jawbone fuses with

the implant, providing exceptional stability and strength. Following this, patients receive an abutment and a custom crown.

The custom crown is designed to match the natural look of the original tooth, seamlessly restoring the patient's smile. With diligent care, such as daily flossing and brushing, a dental implant can last anywhere from 15 to 20 years.

In addition to dental implants in Bethlehem, DICE Dental also offers [CEREC crowns](#) and [extraction services](#).
