About Kitecyber

Kitecyber is a leader in endpoint protection technologies, with a hyper-converged security offering that covers endpoint management, security, compliance, VPN and DLP capabilities. Kitecyber is founded by serial entrepreneurs from VMware, Apple, Cisco Systems, Nimble Storage and Juniper Networks. Our team is backed by years of experience in AI, Cloud, Network and Blockchain security software with a low footprint and high performance. Leveraging our insights from our past experiences, changes in the latest hardware and GPU capabilities, we are able to build an endpoint based SSE solution that was not possible before. Many industry veterans and thought leaders in security, embedded systems and machine learning are working with us to perfect our approach. vulnerabilities.
